EXPERIENCE

Analyst - Risk Consulting

Jul. 2025–Present

PricewaterhouseCoopers (PwC) – Advisory

Bengaluru, India

- Conducted data analysis and risk assessments across **3 clients and 4 audit quarters**, working with datasets exceeding **500,000 rows**; used **Power BI** to process and visualize data beyond Excel's limits, surfacing actionable insights for governance and compliance decision-making.
- Automated recurring audit workflows for **4 client products** using **Python**, reducing manual reporting effort and improving process consistency across credit underwriting, checkout finance, and payroll functions.
- Translated ambiguous business problems into structured analytical findings; communicated recommendations to a cross-functional stakeholder group of **10–15 client representatives** spanning business and technical functions.

PROJECTS

CareerCompass | Google ADK, Gemini 2.5 Flash, Vertex AI, BigQuery, Cloud Run

Apr 2026

- Built and deployed a **multi-agent ML solution** on GCP for Google Gen AI Academy APAC; designed **scalable ETL pipelines on BigQuery** for real-time trend analysis across large structured datasets, following production-ready documentation and data architecture standards.
- Deployed end-to-end application on **Cloud Run** with Vertex AI inference; defined data collection processes, architectural design decisions, and system documentation to ensure maintainability and scalability.

Bank Marketing Campaign Analysis | Python, MySQL, Power BI, SciPy

Jun 2026

- Analysed **41,000+ customer interactions** across a retail bank's direct marketing campaigns; engineered features, wrote **15+ SQL queries** for segmentation and channel analysis, and identified a **6.9x conversion gap** between previously contacted and new customers.
- Validated findings using **chi-square and two-sample t-tests** ($p < 0.0001$); delivered a **4-page Power BI dashboard** and data-backed budget recommendation projecting conversion improvement from **11% to 50–65%**.

CERTIFICATIONS

Power BI Data Analyst Associate (PL-300) | Verified Certificate

May 2026

Microsoft | DAX, Power Query, data visualizations, interactive dashboards and BI reports.

Valid for 1 year

Azure AI Engineer Associate (AI-102) | Verified Certificate

Apr. 2026

Microsoft | AI/ML on Azure: NLP, computer vision, generative AI using Azure OpenAI.

Valid for 1 year

Associate Data Practitioner | Verified Certificate

Dec. 2025

Google Cloud | BigQuery, Vertex AI, MCP, Cloud Storage, and BI services for analytics.

Valid for 3 years

TECHNICAL SKILLS

Languages: Python, R, SQL, Java, JavaScript, LaTeX

Analytics & Data: Pandas, NumPy, Scikit-learn, TensorFlow, statistical modelling, ETL/ELT pipelines, data quality validation, data visualization, A/B Testing

Visualization & BI: Power BI (PL-300 Certified), DAX, Power Query, Excel (advanced)

Cloud & Infrastructure: GCP (BigQuery, Vertex AI, Cloud Run), Microsoft Azure (Azure OpenAI, Azure AI Services), cloud-native architectures

Tools & Practices: FastAPI, Git, Agile, documentation, data structures & algorithms, LangChain, Google ADK

EDUCATION

Christ (Deemed to be) University

Bengaluru, India

BSc – Computer Science, Mathematics, Statistics | CGPA: 8.92

Aug. 2022 – May 2025

ACHIEVEMENTS

Leadership: School Head Boy in 10th grade; co-head of **Code Connect** coding event.

Sports: Represented university thrice in **All India Inter-University** South Zone Kho-Kho; State-level badminton player; Captain of department football team.

Cultural: Lead vocalist in a university band; winner of multiple **singing** competitions.
